- R. Four lamps on the center post model heaven's sun/world/moon systems for angels, plus the Heaven Light which interfaces with the Void
- S. Three lamps on six arms model 3-heaven and 3-earth sun/world/moon systems where angels and men live in God's Day/days ([21.1](#))

Precious Stone Models

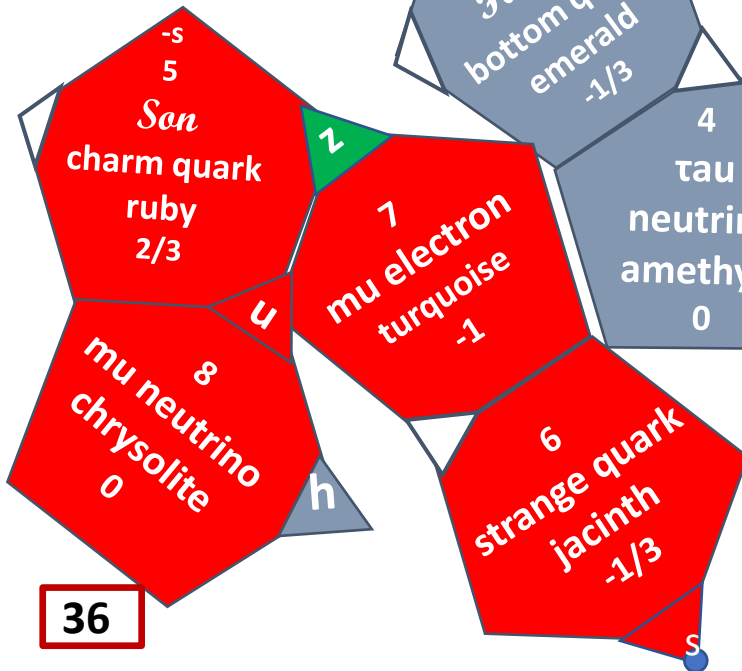

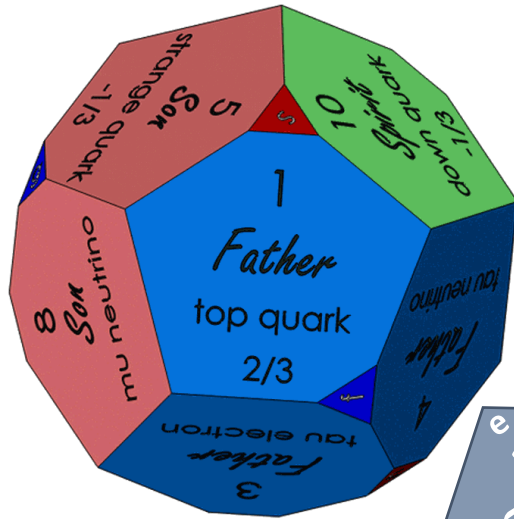

4. God's 12 Precious Stones are science's 12 elementary particles

- W. Aaron's breastplate of 12 gems model God's building stones and science's 12 [elementary](#) particles which form all matter – *Ex 28:15* ([15.2](#))
- X. Jesus said he used these stones to make men from dust, and entering Jerusalem the stones would cry out if men didn't – *Luke 19:40; Matt 3:19*
- Y. New Jerusalem's foundations of the same 12 gems also represent science's foundations of the universe seen via the [LHC](#) – *Rev 21:16* ([15.3](#))
- Z. The breastplate formed a square span of 9 inches or 24 cm. and NJ city forms a 12,000 stadia or 2,400 km cube; the ratio of these worldly sizes in man's units models the fractal ψ as $2400,000/.24 = 10^7$ ([9](#))
- AA. A dodecahedron models these stones and represents the inner and outer surfaces of the universe's [microwave](#) background radiation
- BB. Science interprets this radiation as the afterglow of the big bang, but it is actually the growth glow of the universe from Heaven Lights ([25.8](#))
- CC. Science's dark matter is transient and invisible heavenly matter in earth's 4 space/t-time, but visible in heaven's 8 space/s-time ([13](#))

Creation of Day's Space/Time

Genesis 1 and Revelation 21 describe God's created "Day" of heavens and earths in six eternal time periods called "e-days"

- A. God's Day is separated by water surfaces from the infinite lightless Night: *"Now the earth was formless and empty, darkness was over the surface of the deep, and the Spirit of God was hovering over the waters."* – Gen 1:1-2**
- B. God's six time periods are "eternal" e-days *"And God said, "Let there be light," and there was light. God saw that the light was good, and he separated the light from the darkness. God called the light "day," and the darkness he called "night." And there was evening and there was morning - the first day."* – Gen 1:3-5; so "Day" is space and an e-day is a time period of 24 e-hours**
- C. The first e-day lasted from no-light at 1st evening to the space and time created via life from light, ending at the 1st morning ([19.2](#))**
- D. There is no Night within Day's portion of the universe, and an e-day time period does not include an e-night time period; *"On no day will its gates ever be shut, for there will be no night there"* - Rev 21:25**
- E. Earth's three 24 ψ -year creation e-days #4, #5, #6 have been separated by [geologists](#) into three [eras](#) roughly [Precambrian](#), [Paleozoic](#) and [Mesozoic](#)**

Creation of Day in six e-days of time

Each creation e-day is 24ψ t-years equals 666 (σ) s-days ([19.1](#))

Son's Heaven/Temple/Throne/heaven's gravity and nuclear forces: – *Gen 1:3-13*

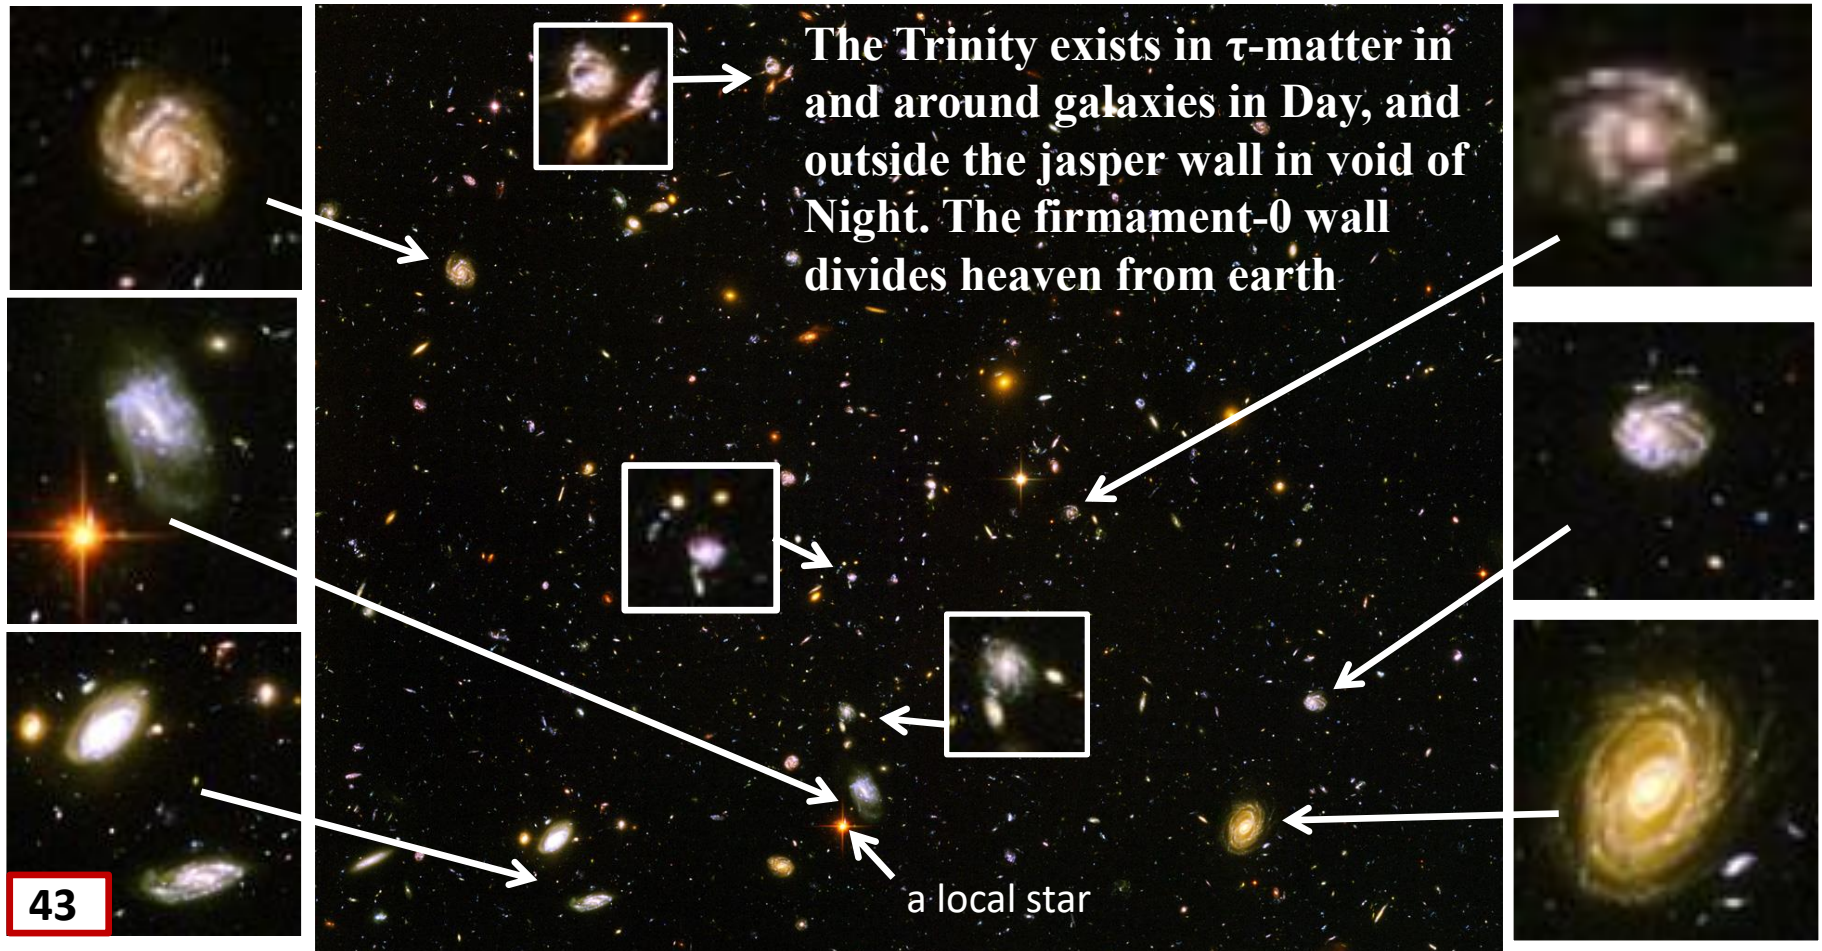

1. e-day 1: creation of light as s-space/s-time (u, v, w, s) in Heavens but Earth's space/time was void, and the Spirit hovered over a surface of waters separating the universe of Day from the void of Night
2. e-day 2: waters are separated by a *firmament* wall into “above” and “under” as Day's sky expanded them from the 2nd evening to morning
3. e-day 3: “under” waters were used to create matter of seas and lands and each kind of vegetation created on heaven's worlds

Spirit's Earth/Courtyard/Footstool/earth's [gravity](#) and [geology](#): – *Gen 1:14-31*

1. e-day 4: ([Precambrian](#)) suns formed with worlds and moons in galactic arms of earth's skies to define all world's s/t-seasons, s/t-days and s/t-years
2. e-day 5: ([Paleozoic](#)) wild animals on lands, seas and skies in heaven and earth
3. e-day 6: ([Mesozoic](#)) livestock and men; *“God saw all that he had made and it was very good. And there was evening, and there was morning - the sixth day.”*

Einstein's [Special](#) and [General](#) (with gravity) [Relativity](#) and $c^2 = E/m$ are explained with matter formed on e-day 2, vegetation and angels in heaven on 3, earth on 4 with vegetation and man on 5 and 6.

Today is God's Seventh e-day #7

6. After 6 e-days of creation described in Genesis and Revelation, God's 7th e-day of rest is clearly "Now" and called "*Today*"

- A. t-man and μ -angels live in *Today*, God's 7th e-day of rest of equal length to the first six -*Heb 4:3,4*; seen as *Now* since this e-day represents $24\psi = 240$ million t-years for man and $(24\psi/\alpha) = s$ -days for angels**
- B. Long ago God talked about Israel's rebellion - *Ps 95:7* "*For forty years I was angry with that generation*" – 50 millennia later Paul wrote: "*Therefore God again set a certain day, calling it Today, when a long time later he spoke through David, as was said before: 'Today, if you hear his voice, do not harden your hearts'*" *Heb 4:7* This certain day called *Today* is not an image of our 24 t-hour day and night period but a creation e-day**
- C. Jesus' words "*I tell you the truth, today you will be with me in paradise*" apply to all men and *today* is *NOW*, God's 7th e-day – *Luke 23:43***
- D. The Son, Jesus existed in earth as a man in t-matter, also as a heavenly spirit in μ -matter being Christ "the angel of God", and also in τ -matter as the Trinity in the Day-void surrounding galaxies – *Gal 4:14*; *John 17:5***

Man's expulsion from Heaven

6. Man's sin in e-day #7 disturbed God's 12-dimensional Day, so man was expelled via the 7th dimension from 8-dimensional heavens and restricted to 4-dimensional earths and t-matter

- E. God blocked the 7th-dimension to heaven until the curtain was torn a Jubilee of millennia or 50 s-days later at Jesus' death - *Mark 15:38* ([20.2](#))
- F. Earth's t-matter is temporal, dispersing outwardly from heaven at 666 or σ km/sec. incorrectly interpreted as [dark flow](#) or caused by a [great attractor](#) *"We know that the whole creation has been groaning as in the pains of childbirth right up to the present time."* - *Rom 8:22* ([22.5](#))
- G. Adam / Eve were created to live in eternal μ -matter/s-time, but were expelled; *"So the LORD God banished him from the Garden of Eden to work the ground from which he had been taken. After he drove the man out, he placed on the east side of the Garden of Eden cherubim and a flaming sword flashing back and forth to guard the way to the tree of life."* - *Gen 3:23; Zech 2*
- H. God clothed man in skin of earth's t-matter/time and moved him to the world, prepared during e-day #6 to its current location in earth, no longer allowing him to see heaven's s-dimensions – *Gen 3:21; Rev 11:1*

Galaxy earth matter is logarithmic

- A. Shows predicted velocity if the galactic core's gravity were able to hold *in-flowing* matter in orbit over 4 billion years or 16 revolutions of the galaxies (16 e-days) as required by the current Big Bang paradigm
- B. Shows measured velocity of constantly *out-flowing* of earth's t-matter over six e-day of .24 billion years each, burning out at the end of 6 e-days. The Heaven Light has enough gravity, G_s , to hold heaven's μ -matter in orbit whereas earth's ψ^{-12} lower gravity, G_t , allows t-matter to drift away at $\sigma \text{ k/s}$

Giza Pyramid Physics
(see hyperlinked video)

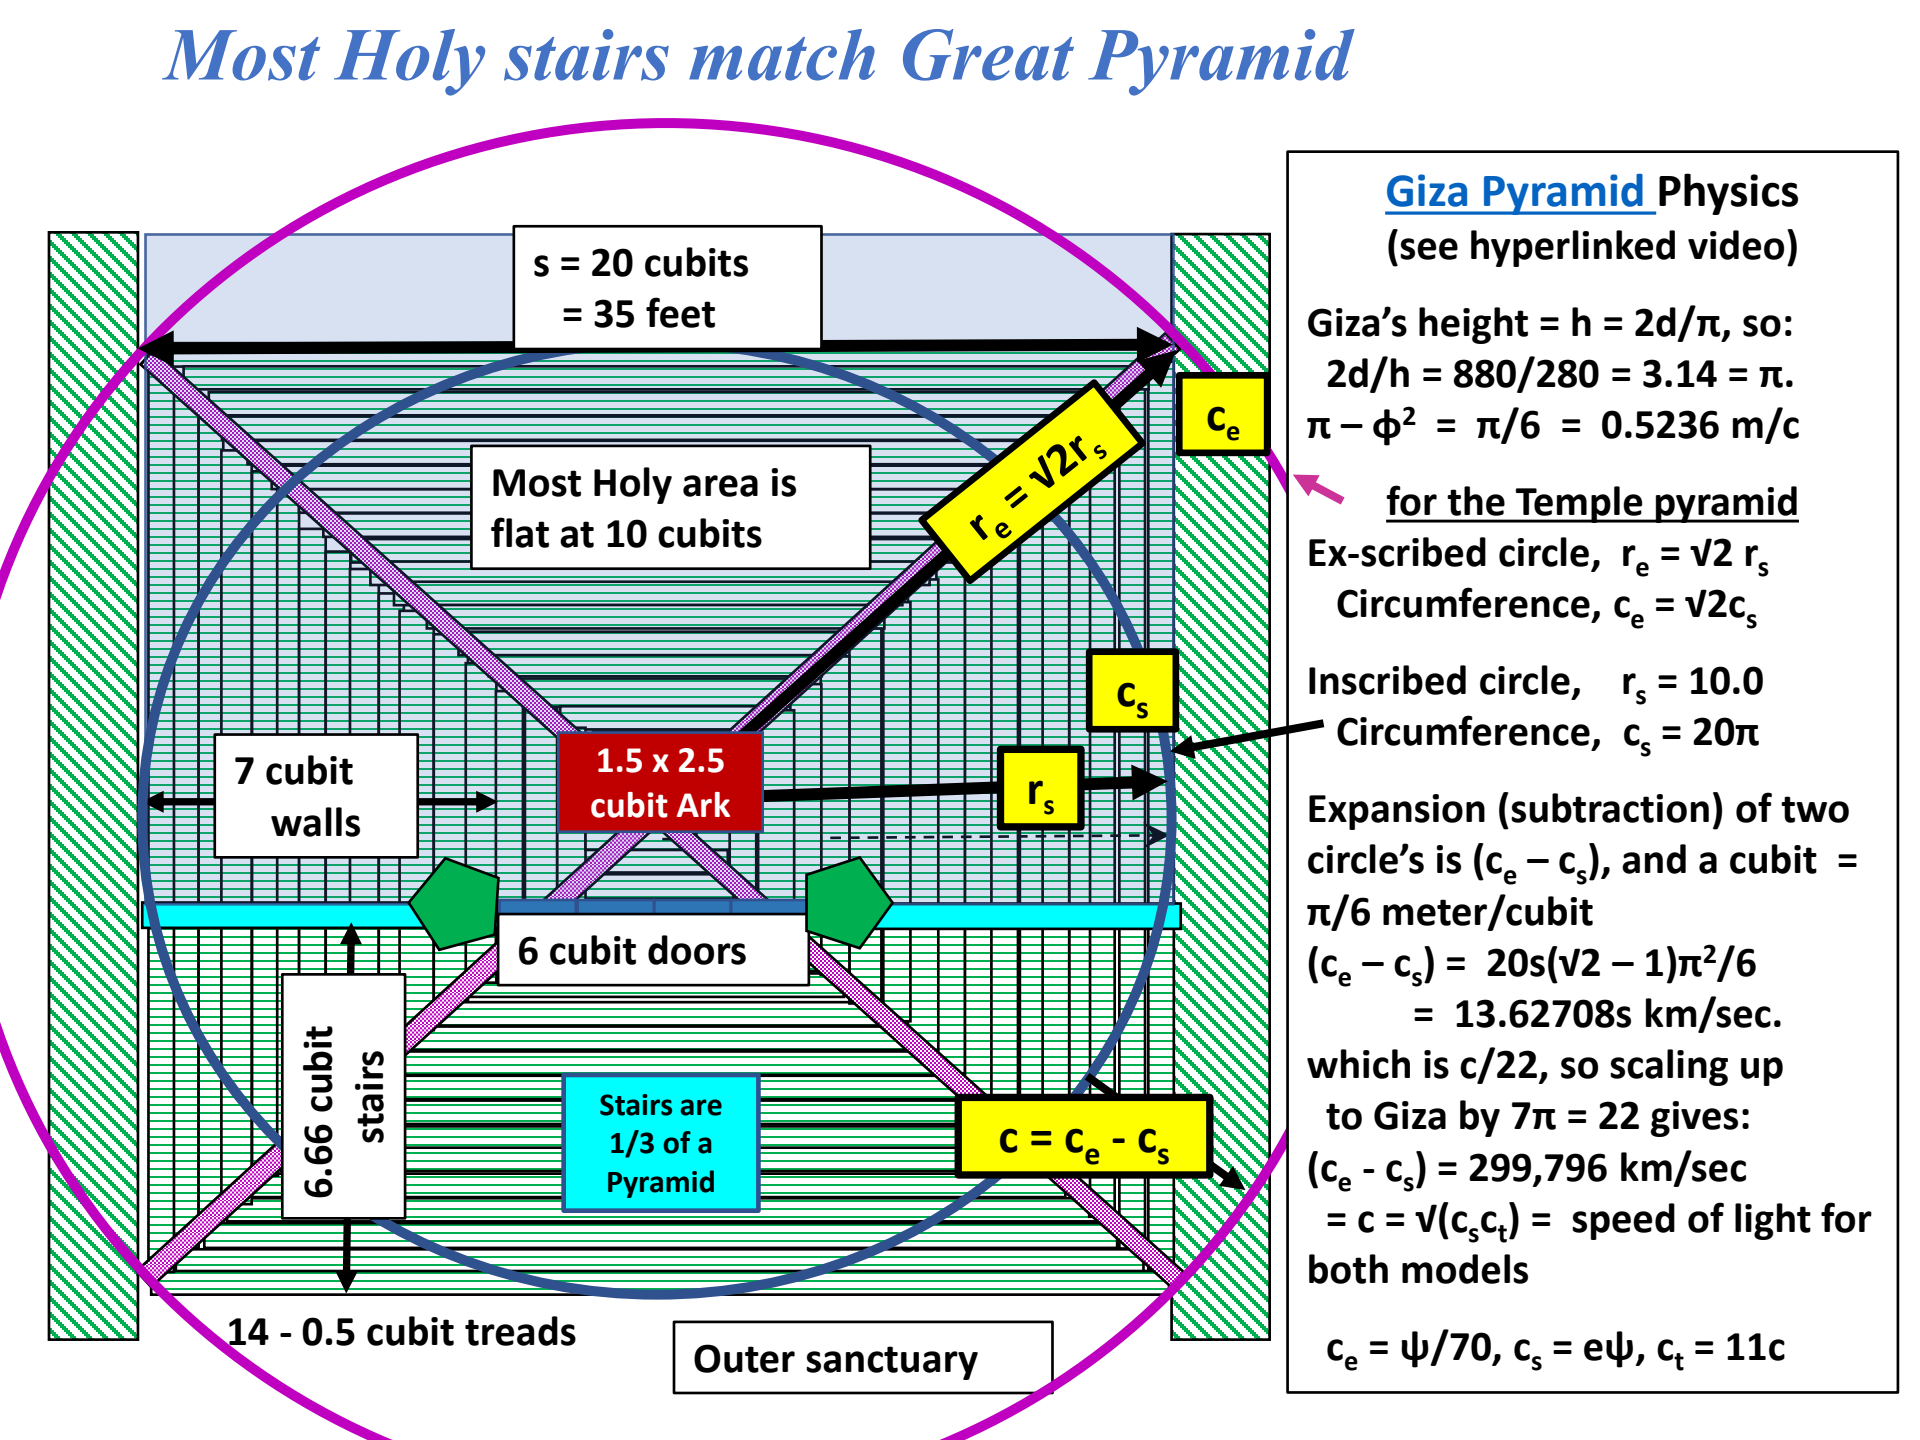

Giza's height = $h = 2d/\pi$, so:
 $2d/h = 880/280 = 3.14 = \pi$.
 $\pi - \phi^2 = \pi/6 = 0.5236 \text{ m/c}$

for the Temple pyramid
 Ex-circumscribed circle, $r_e = \sqrt{2} r_s$
 Circumference, $c_e = \sqrt{2} c_s$

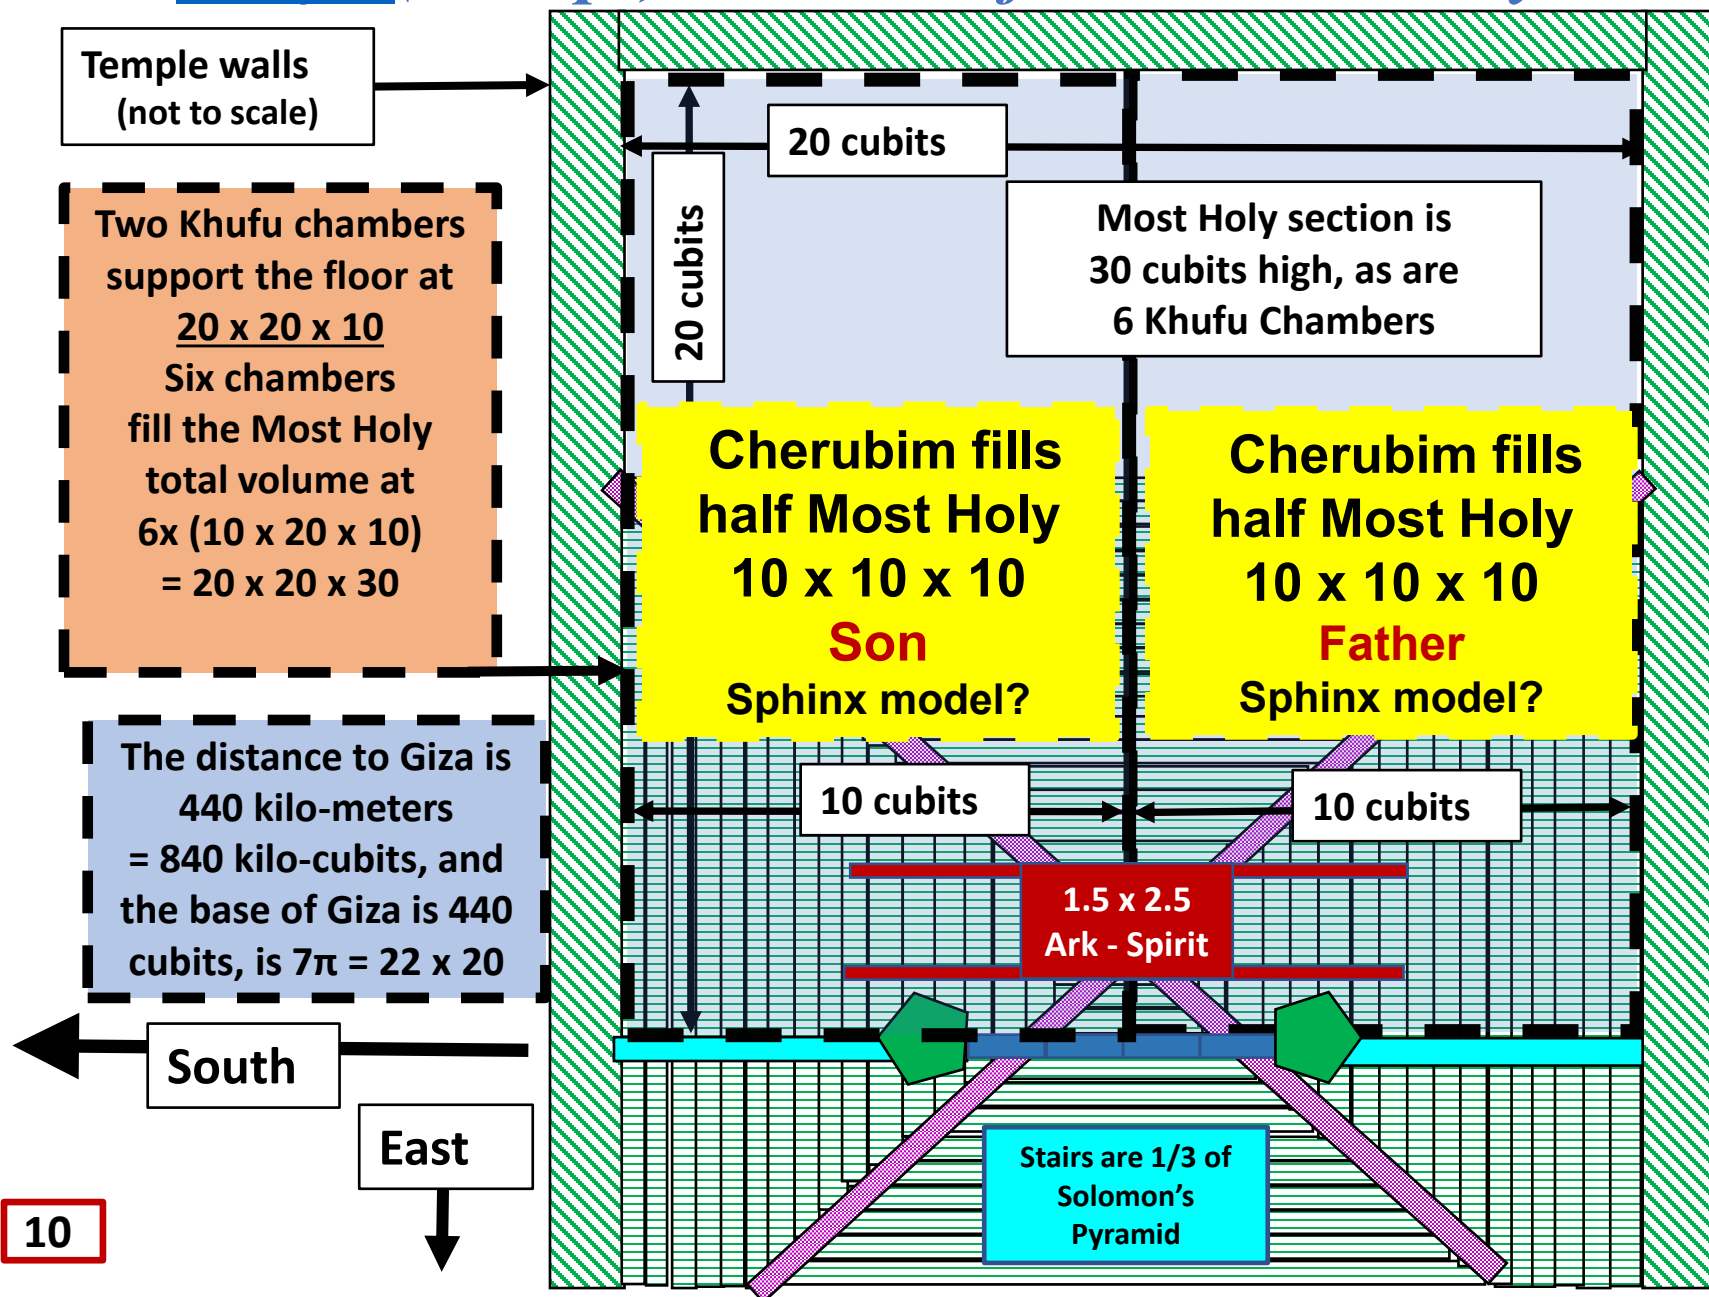

Inscribed circle, $r_s = 10.0$
 Circumference, $c_s = 20\pi$

Expansion (subtraction) of two circle's is $(c_e - c_s)$, and a cubit = $\pi/6$ meter/cubit
 $(c_e - c_s) = 20s(\sqrt{2} - 1)\pi^2/6$
 $= 13.62708s \text{ km/sec.}$
 which is $c/22$, so scaling up
 to Giza by $7\pi = 22$ gives:
 $(c_e - c_s) = 299,796 \text{ km/sec}$
 $= c = \sqrt{(c_s c_t)} = \text{speed of light for both models}$

$c_e = \psi/70, c_s = e\psi, c_t = 11c$

$$c_e = \psi/70, c_s = e\psi, c_t = 11c$$

Numbers 2, 3, 7, 4, 10, 12 are Biblical model numbers

- A. 7 is used 387 times and Revelation is full of seven features of God and man, modeling $\Psi = 10^7$, and $1/7$; embedded in cosmic numbers:
 - a. $\pi \approx 22/7 \approx 3.14$ is modeled by 22 lamps on 7 menorah groups
 - b. $c \approx 21/7$ is the speed of light in earth, $c^2 = (30\Psi)^2 \text{ m/s}$; the space-time scale factor for Spirit in earth is $c_t = 11c = 333\Psi$ (half of σ); for Son in heaven $c_s = e\Psi$, for Father in void is $c_e = \Psi/70$ ([25.4](#))
 - c. $e \approx 19/7 \approx 2.71$ is the natural [logarithm](#) base; $\ln e^x = x$; $de^x/dx = e^x$; $\Psi^e = 10^{19}$; angel's μ -matter is 190 times man's 0.0077 t-matter
- B. Half of 7 = 3.5 is a period of 1 e-time, 2 s-times and $\frac{1}{2}$ t-time
- C. 42 months = 1260 days = 3.5 years and 35 and 42 logarithmically split God's Day/days of earth's space/time into $\Psi^{\pm 5}$ and $\Psi^{\pm 6}$ – Rev 11:1; 12:5
- D. 10 is used 195 times and forms the base of our body's number system
- E. 12 is used 141 times and models the 12 tribes of Israel, Jesus' apostles, precious stones of Aaron/NJ, ratio of angel-God matter, man's age limit; life force at 120 GeV (Higgs Boson mass – the “God Particle”)

1. ***“Father, forgive them, for they do not know what they are doing.”***

7. ***“Father, into your hands I commit my spirit.”***

Jesus asks his Father to forgive all mankind throughout the universe

H. The five between were directed to or from mankind

2. ***“Dear woman, here is your son, “Here is your mother.”*** - *John 19:26*

3. ***“I tell you the truth, today you will be with me in paradise.”***

4. ***“Eloi, Eloi, lama sabachthani?”***-which means, “My God, my God, why have you forsaken me?” - *Matt 27:46*

5. ***“I am thirsty”*** and

6. ***“It is finished”*** – *John 19:28*

As man’s representative, Jesus asks his Father “why have you forsaken me?” yet confirms through his suffering that all men who are baptized with water and the Word and thirst for forgiveness will join the Trinity Today in heaven so his work in earth is finished – A model of a Christian’s life

Science's Numbers

Numbers 2, 3, 7, 4, 10, 12 are Science's model numbers

Measure the makeup of space/time, matter, forces, and life

- A. Science's string theories require 1 time and 10 space dimensions, 7 of which scientists believe to be uselessly curled up at the [Planck](#) size**
- B. The bible describes a void which requires a separate eternal time-like dimension called "e-time" available to the Trinity, for a total of 12**
- C. Biblical models imply 10 space dimensions labeled here as (u, x, f, v, g, s, z, w, h) with the 7th s-axis both space and time-like, and 2 time dimensions, t and e, scaling space by the "speed of light", c**
- D. The bible's 12 dimensions may be associated with the Trinity ([22.2](#)) by grouping them into three sets of four, labeled here as: t, s, e**
 - a. set t = earth's created t-time associated with God the Spirit/man**
 - b. set s = heaven's s-space/time associated with God the Son/angels**
 - c. set e = void's eternal e-time associated with God the Father/Trinity**
- E. All of these numbers are delicately balanced in a [Goldilocks](#) condition to allow life to exist on all worlds within Heaven and Earth**

Fractals and God's e-day

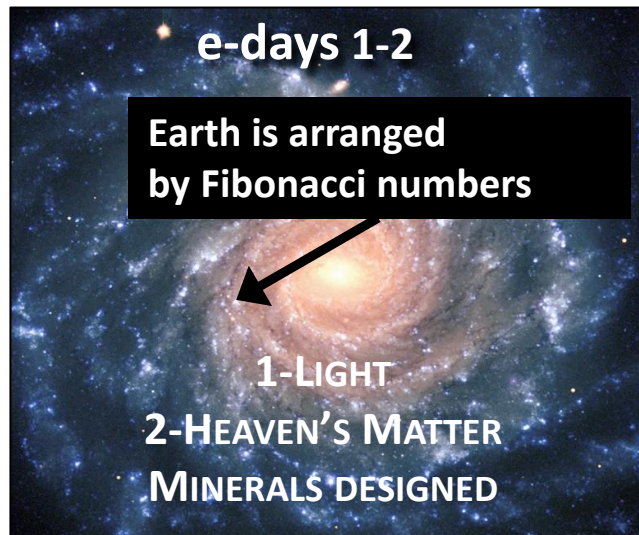

The Fractal $\psi = 10^7$ is a universal size and time scale factor

- A. A fractal is a repetitive design found in all life forms as they grow**
- B. Science's meter length was defined by God to be the distance from our world's north pole to the equator as $10^7 = \psi$ meters**
- C. Ψ is modeled in the bible by the 10 temple lampstands each having 7 Lamps, and by the size ratio of New Jerusalem to Aaron's breastplate**
- D. Heaven's fractal is $e^7 = 1085$ ($e = 2.7183...$) and heaven's gravity operates out to $12\alpha = 12,000$ stadia = 12,000 light years**

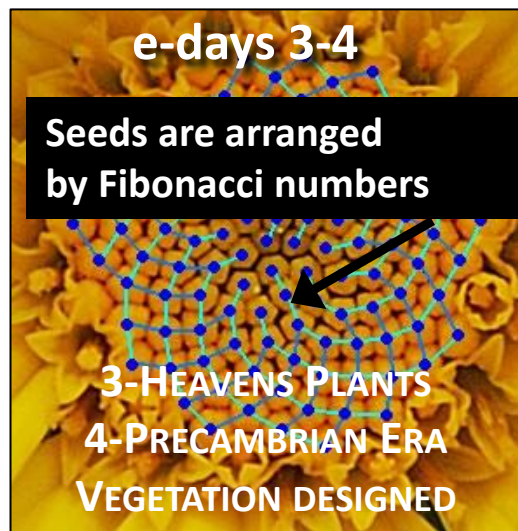

Six creation e-days = 6-24 e-hour revolutions of all heavens

- A. Six creation e-days took 144ψ or 1.44 billion t-years, modeled by the above expansion wall of 144 cubits or 144 e-hours within Day**
- B. Stars were created in e-day #4. $(e) = 2.71$ e-days $\approx$ σ million years ago as one example of man's number; $\sigma = 666$ – *Gen 1:14; Rev 13:18***
- C. Milky Way radius is $50e^7$ light years, so Jesus came as light left every galaxy which entered when Adams sinned, to reconcile all men as stated in *Gen 3:15*, a Jubilee (50 millennia = $\sim 50e^7$ years) later. We are now at 52,000 to match our week-to-year and cards in a deck.**

$\phi = 0.6180339...$

Mathematical Fractals found in Scriptures

Binary – the simplest fractal is binary, repeating 0 and 1

- A. Natural symmetry of space/s-time/matter is bi-directional, but not our mono-directional or “half” a t-time**
- B. Basis of computer operations and logical analysis (Boolean algebra)**
- C. Binary multiples of 3 form octal, and 4 form hexadecimal**

Decimal – the most obvious is 10 fingers and toes of our “skins”

Logarithms or exponents of 10 model Day’s structure

- a. $10^{\pm 3} = \alpha^{\pm 1}$ – angel’s ratio (+) t-years to s-days, (-) t-days to s-years**
- b. $10^7 = \psi$ – a cubit hour of e-time in t-years**
- c. $10^{16} = \rho^{-1}$ – stadia or light year in meters**
- d. $10^{19} = \psi^e$ – diameter of Day in t-light-years, galaxies in meters**
- e. $10^{21} = \psi^3$ – speed of light**
- f. $10^{22} = \psi^\pi$ – possible number of galaxies in Day**
- g. $10^{\pm 35} = \psi^{\pm 5}$ – distance to Day’s walls in meters**
- h. $10^{\pm 84} = \psi^{\pm 6}$ – time to Day’s walls in t-seconds**

God's Day is Inhabited

Day's heavens and earths, each called "it" by Isaiah, were designed to be inhabited by the Trinity, angels and mankind

- A. Every galaxy in Day contains heaven and earth - *Isa 45:18 "he who created the heavens, he is God; he who fashioned and made the earth, he founded it; he did not create it to be empty, but formed it to be inhabited"*
- B. Plank's space/time granularities are 10^{-35} meters; 10^{-42} seconds
- C. Man is logarithmically centered in 10 ψ -size - 12 ψ -time fractals
 - a. 5 ψ -sizes smaller & larger than man's size: $\psi^{\pm 5} = 10^{\pm 35}$ meters
 - b. 6 ψ -times shorter & longer than man's time: $\psi^{\pm 6} = 10^{\pm 42}$ seconds
 - c. 6 ψ -time periods model e-days with an e-day = 24ψ years
- D. One of man's years is $\pi \times \psi$ seconds, and a light year is 10^{16} meters, so diameter of Day is $10^{35}/10^{16} = 10^{19} = \psi^e = 10^{10}$ billion light years
- E. Earth's radius is $.7\psi$ meters and our sun's radius is 70ψ meters
- F. A menorah's 22 lamp triplets, 4 on the post and 18 on the 6 arms, must represent 7ψ inhabited sun/moon/world sets in each galaxy

Angel to God's Ratios

Angels may see and also exist in a greater range of the light spectrum than men, residing in bodies of greater size/mass

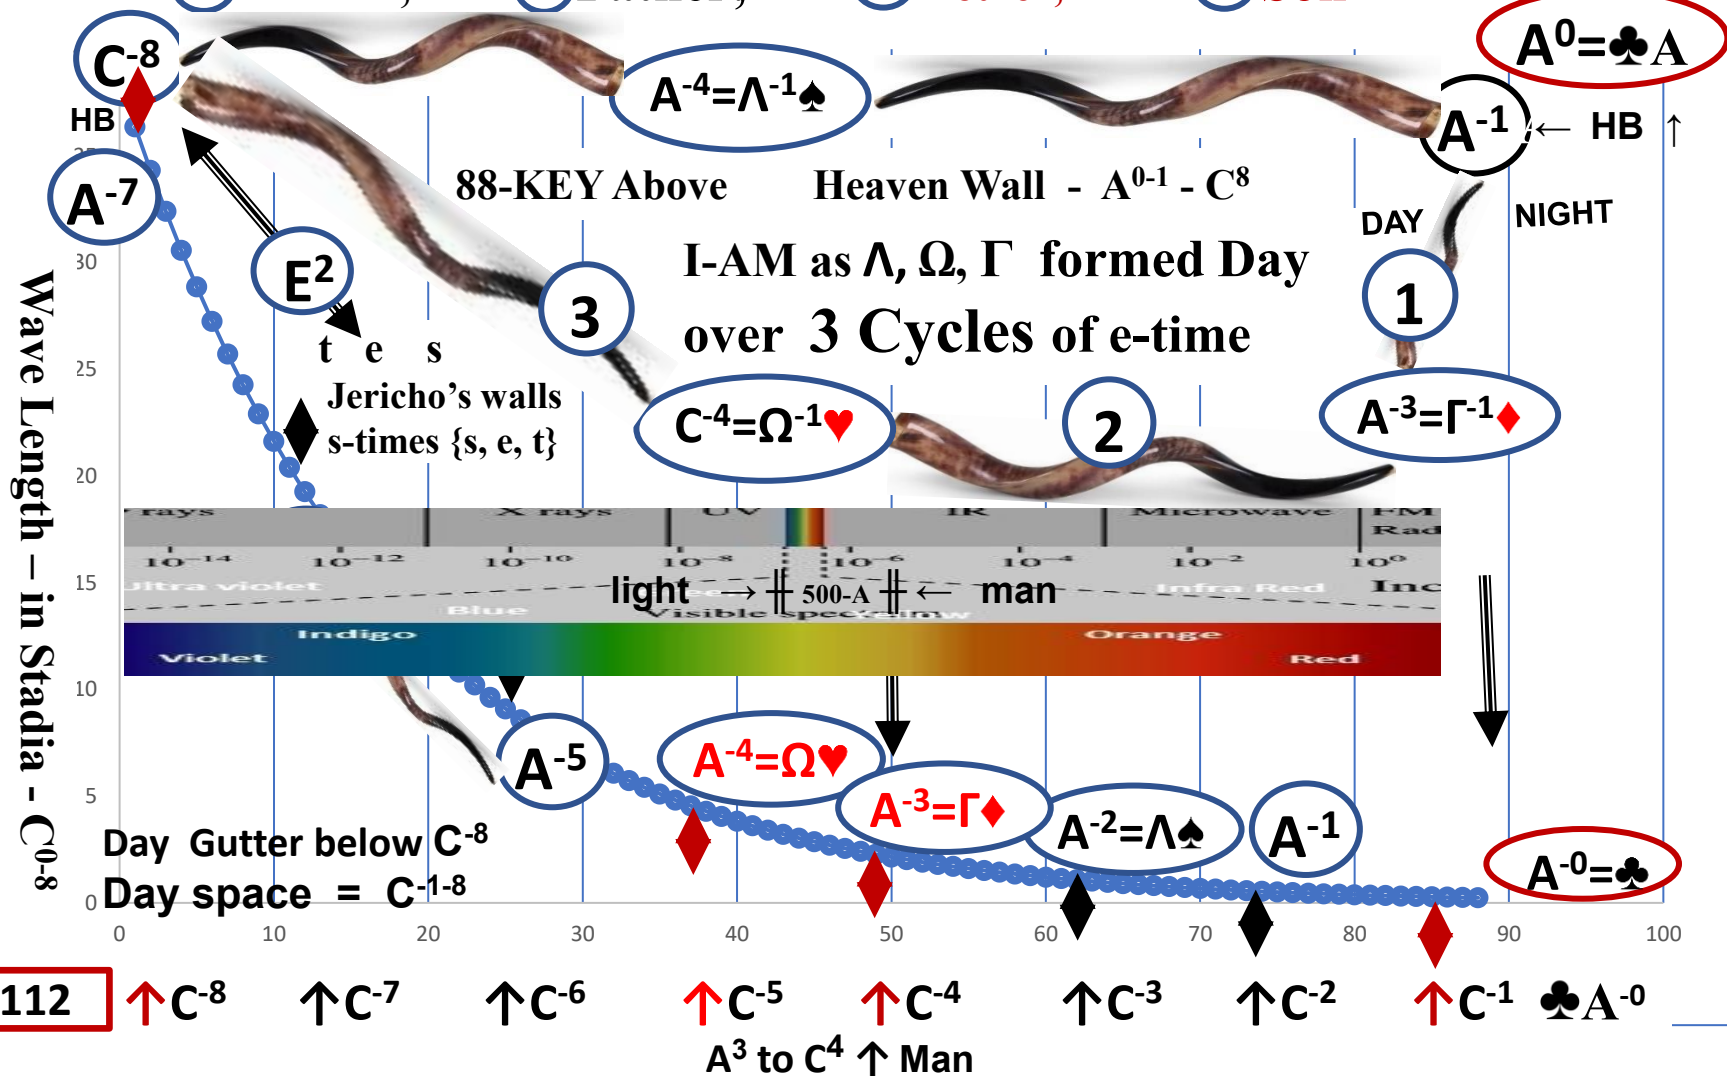

- A. “With the Lord a day is like a thousand years, and a thousand years are like a day” – 2 Peter 3:8 as taken from Ps 90:4; so an angel’s s-day is like a thousand t-years and vice versa or $\alpha = 10^{\pm 3} = 350,000$ t-days/s-day, 365,000 now as the world drifts away from the sun**
- B. Heaven’s and angel’s ratio of space/time/mass to earth and man is 7’s to be $\alpha = 3.5 \times 10^{\pm 5}$**
- C. Angels and the Trinity live $\pm \alpha$ -times faster/slower than men so may see $\pm \alpha$ -more of the light spectrum, be α -larger, and reside in μ -matter 190 times heavier than man’s t-matter, and the Trinity in τ -matter, 120 times heavier than angel’s μ -matter – 1 Cor 13:12 ([15.5](#))**
- D. God’s Ratio of all known light to man’s visible light is seen from NJ to be the angel’s ratio times God’s e-day: $\omega = 24\psi\alpha = 84 \times 10^{12}$**
- E. These times and sizes are shown on “Scales of the Universe” based on John’s vision of New Jerusalem (NJ) – Rev 21:15, prophesized by Zechariah**

Description of Scales of the Universe

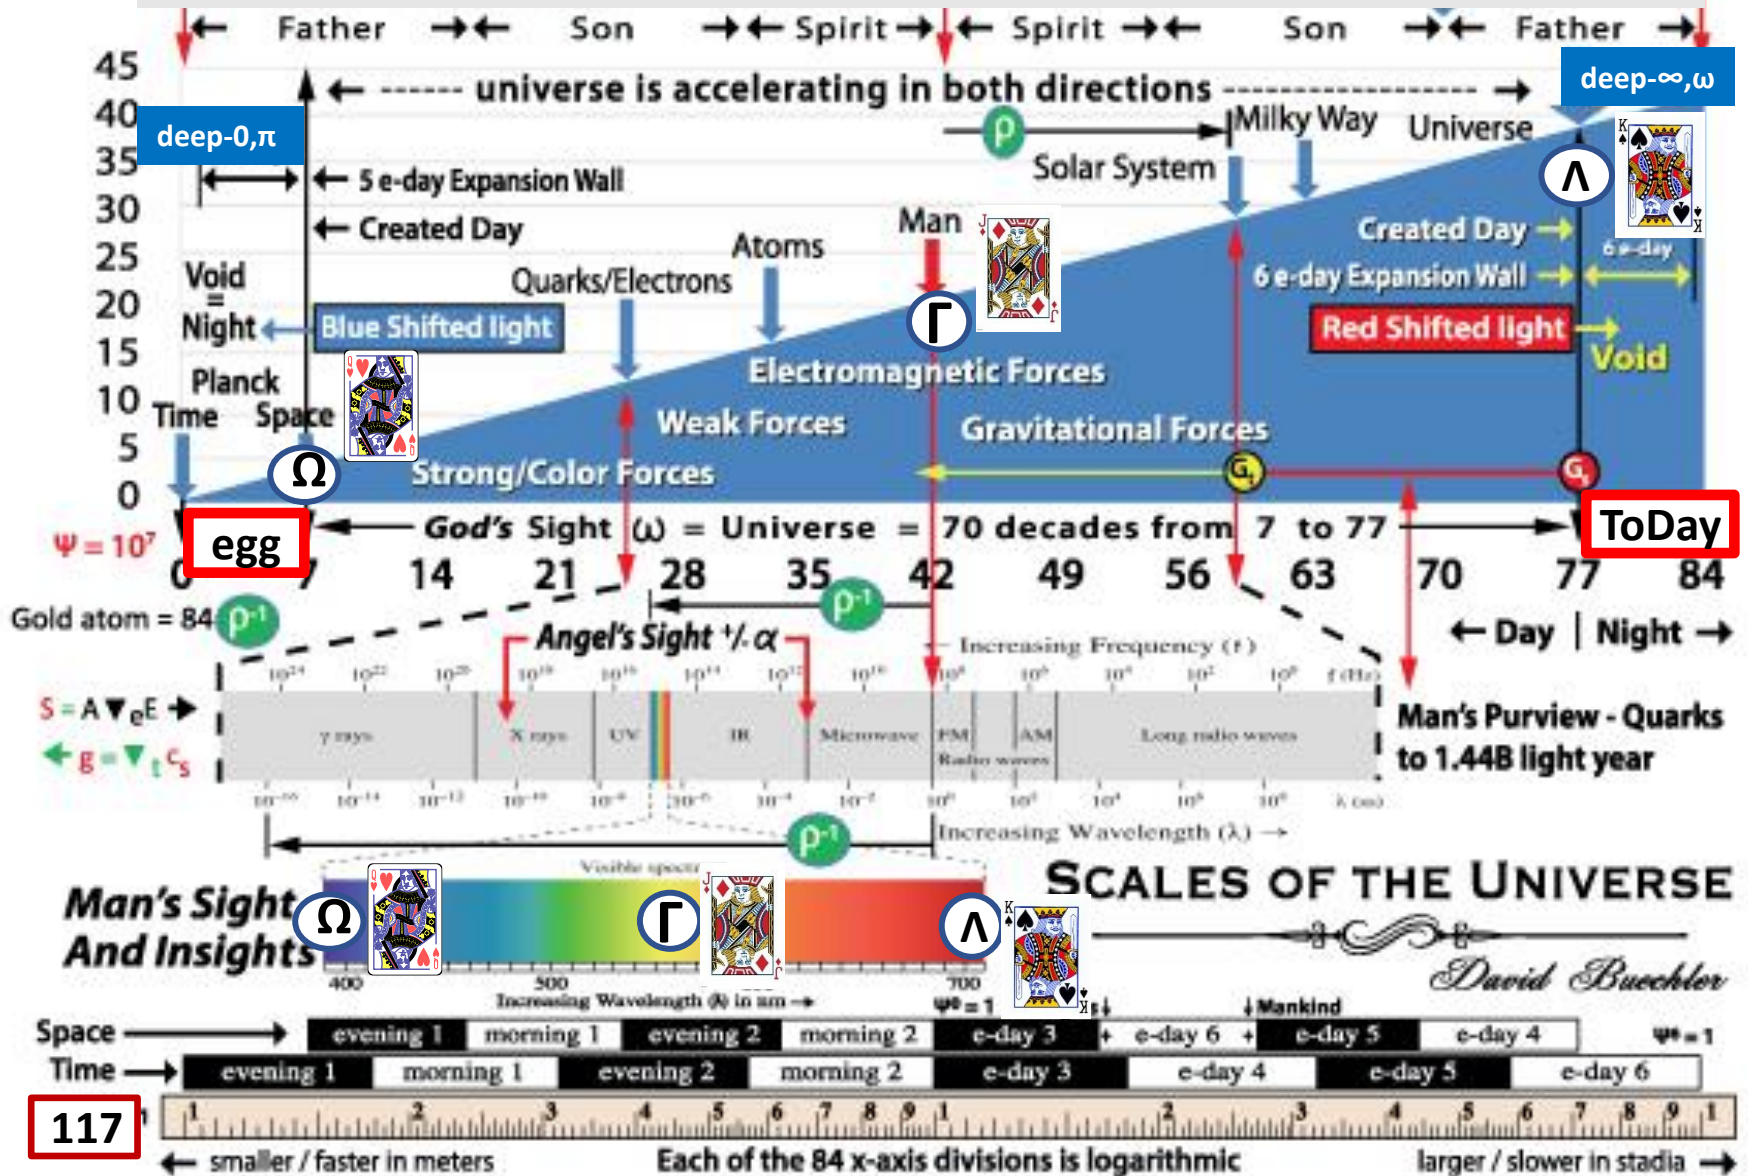

- F. The logarithmic horizontal scale is divided into twelve Ψ -increments of 10^7 for a total scale of $\Psi^{12} = 10^{84}$ meters, and the vertical scale is half as high
- G. Along the bottom is light's spectrum visible to God, and expanded regions for angels and mankind; God says he is the α and ω – *Rev 1:8, 21:6, 22:13*
- H. The 12 finite space/time dimensions called Day are $10^{\pm 42}$ seconds by $10^{\pm 35}$ meters (10^{19} ly); the ratio of time/space = $10^{42}/10^{35} = \psi$; the void of Night exists outside Day; the speed of light in earth is 30ψ m/s
- I. Let $\textcircled{p} \equiv 10^{-16}$ meter be an inverse light-year (ly^{-1}) where atoms exist
- J. The 5 and 6 e-day inner 120Ψ and outer 144Ψ stadia Fermament of water separate Day from Night. God's insertion of light entropy from the void into Day generate 2-way accelerations of strong, g and weak, W-Z nuclear forces, and earth's, G_t and heaven's, G_s gravities
- K. A scale across the top shows regions of stability of elementary particles and a linear scale of the 3-5 (e,s,t)=(time, times and half a time) – *Dan 7; Rev 12*
- L. For an interesting look at “powers of ten” from -35 to + 27, see “[Scales](#)” and note that more than a coincidence our world is at ψ , and galaxy at ψ^3

Our Light Spectrum in the Universe

Invisible s-space/s-time

13. Heaven's matter is time-transient and not visible to men from earth except via large particle accelerators or cosmic explosions

- A. God's dual-direction e-time and s-time dimensions are not like our mono-direction t-time, and our t-day is an image of heaven's s-day, but **not** the other way around, so to say a creation day is the same as our 24 hour day implies heaven is an image of earth – *Ex 20:8; Isaiah 55:9*
- B. Mankind is in a prison of four earthly dimensions and cannot see light from heavenly [dark \$\mu\$ -matter](#) in its invisible s-u-v-w dimensions ([16.4](#))
- C. The Son's and Father's elementary particles scientists call μ and τ are transient in our world, lasting 10^{-10} and 10^{-20} seconds respectively, and originate outside our space/time so are invisible or "dark" ([15.2](#))
- D. These particles must be stable in heaven but in our earth a μ -electron only lives 2.2×10^{-12} seconds ([see ref item -10](#)) "*For by him all things were created: things in heaven and on earth, visible and invisible*" - *Col 1:16*
- E. Science's [dark energy](#) is light entropy's space/time added at the core of galaxies causing Day's accelerations, $\nabla_e = dc_e/de$, into the void ([16.4](#))

Precious Stones and Life

Science's 12 elementary particles are God's "Precious Stones"

- A. The ratio in meters of sizes of New Jerusalem's base of 12 jewels – *Rev 21:16* and Aaron's breastplate – *Ex 28:15*; is $2400,000/.24 = 10^7 = \psi$, and both sets of jewels represent the universe's elementary particles
- B. Men have used proton accelerators at the [LHC](#) to see all of God's stones: *"I am the way and the truth and the life. No one comes to the Father except through me. If you really knew me, you would know my Father as well. From now on, you do know him and have seen him."* - *John 14:6*
- C. The 12 precious stones model the universe's 12 elementary particles of 6-quarks, 3-neutrinos and 3-electrons separable into 3 families, plus another 12 with opposite polarity called anti-matter (may be hell?)
- D. Only life is able to convert light energy into precious stones and nuclear forces which hold matter together, *"For I tell you that out of these stones God can raise up children for Abraham"* - *Luke 3:8*, and scientists don't know how matter first formed after the Big Bang, but look for a magic field called a Higg's Boson (the God particle) which God calls Life ([16.1](#))

Gravity and nuclear forces

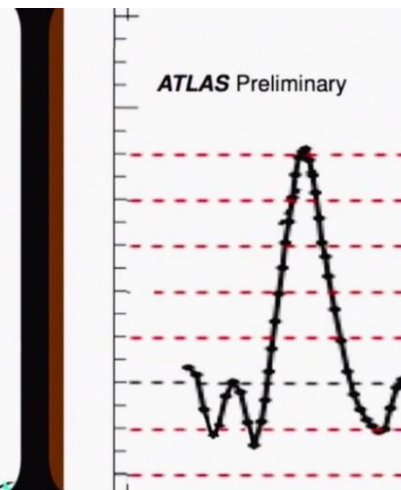

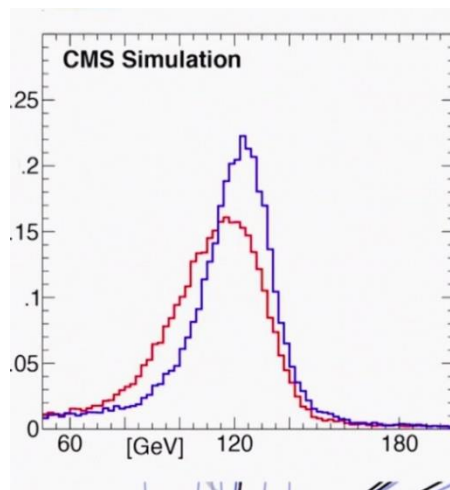

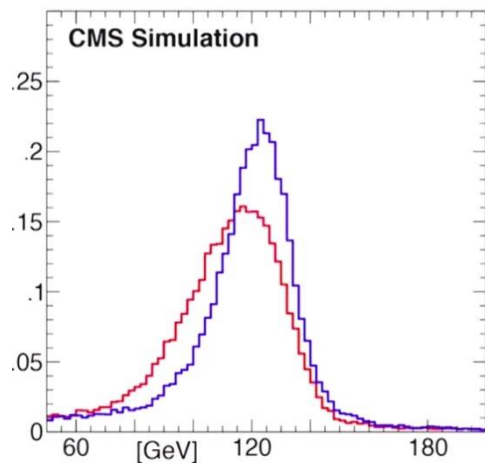

16. Gravity and nuclear force fields are Day's two-way acceleration into the void, and produce what science calls Gauge Bosons

- A. Acceleration of mass in the universe caused by a force, $F = ma$, or caused by gravity, $F = m G_t = m(dc_t/dt)$, are indistinguishable
- B. The Spirit's/earth's created time (t) scales (x, y, z) by $c_t = 11c$, and Day's acceleration into larger/smaller void causes gravity, $G_t = dc_t/dt = \nabla_t c_t$, which is $\alpha\psi^4$ weaker than W/Z and $\alpha\psi^5 = \psi^{2e}$ weaker than g – Prov 8:22
- C. The Son's/heaven's created time (s) scales (u, v, w) by $c_s = e\psi$, $\ln e^x = x$, and acceleration of Day at $dc_s/dt \equiv \nabla_t c_s = g$, forms strong gluon forces which hold quarks together at ψ -greater force than W/Z; and heaven's gravity, $G_s = \nabla_s c_s$ is (ψ^7/α) larger than g and ψ^{12} greater than G_t
- D. G_s and g hold Day's larger-smaller space in its walls of water, gold, jasper “He is before all things, and in him all things hold together.” - Col 1:16 (25.9)
- E. The Father's/void's constant time (e) ($\nabla_e c_e = 0$ – Heb 13:8) scales (f, g, h) by $c_e = \psi/70$, and Day's acceleration into the void at $\nabla_{t/s} c_e = W/Z^0$ create weak nuclear forces used to transition men at death from t- to μ -matter, and entropy $A \nabla_e E$ is light energy supplied to Day from the Void

Matter created via life; Forces via accelerations

“Measurements” of “Higgs??”

Day is a finite, closed system in the infinite Void of Night

- What is “outside” a closed system cannot be discerned from within
- Scriptures describe the above and under water walls of Day
- The under wall explains man’s need to describe forces as particles
- Black holes with infinite gravity don’t exist since the wall intervenes
- Heaven and earth outward accelerations produce gravities, G_s , G_t
- Inward acceleration of the walls produce nuclear forces, g , Z , W

136 Expansion of galaxies at σ km/sec produce Newton’s Law $f = \sigma m_1$

Forces and man's position in Day's space/time

Outer radius $r_s = 10^{+35}$ meters (ψ^5); 1.44 billion light-year "jasper wall" at morning void Night

Define: $\nabla_t \equiv d/dt$
 $\nabla_s \equiv d/ds$ $\nabla_e \equiv d/de$
 Since: $c_e = \psi/70$ m/s
 $c_s = 2.71\psi = e\psi$ m/s
 $c_t = 333\psi = \sigma\psi/2$ m/s
 Then Day's forces are:
 $G_s = dc_s/ds = \nabla_s c_s$
 $G_t = dc_t/dt = \nabla_t c_t$
 $W_t = dc_s/dt = \nabla_t c_s$
 $Z_t = dc_t/ds = \nabla_s c_t$
 $g_{t/s} = dc_e/dt/s = \nabla_{t/s} c_e$
 $f_t = d\sigma_t/dt = \nabla_t \sigma_t$

Forces of the Universe constrain Day

Four increments of $\Psi^{2.5}$ divide 10^{70} , and three increments of Ψ^4 divide 10^{84} spans of space/time, to show how forces are symmetric within Day's space, and G_t folds at the strong force, g , out through $\alpha\Psi^5$ meters within Day

Earth's G_t gravity operates out to $\Psi^{2.5}$ relative to man, or $10^{17.5} = 32 \times 10^{16}$ meters = 32 light years; heaven's G_s gravity operates to $12\Psi^e = 12,000$ stadia

Heaven's gravity G_s is Ψ^{12} stronger than G_t in 7 space dimensions and decreases with distance as $1/d^6$ rather than $1/d^2$ as G_t does in 3, but being evenly spread in galaxies is able to contain Day's radius to ψ^5 meters

Insertion of light entropy from the void's (e) 10 into heaven (s) 7 and earth's (t) 3 space dimensions at gold's 84 ρ -meters, generates forces fields:

| 3. Heaven's gravity | $G_s = dc_s/ds = \nabla_s c_s$ | $= \Psi^{12} G_t$; effective to $12\Psi^e$ |
| 4. Weak forces | $W_{t/s}; Z_{t/s} = dc_{s/t}/dt/s$ | $= \nabla_{t/s} c_{t/s} = \alpha\gamma$ |
| 5. Strong forces | $g_{t/s} = dc_e/dt/s$ | $= \nabla_{t/s} c_e = \Psi(W/Z)$ |
| 6. Newton's Law | $f = \sigma m_1 m_2 / d^2$ | $= \nabla_t \sigma_v$ |

Strong forces, g and Weak forces, Z₀, W⁻, W⁺

Strong gluon forces: g hold the atomic nucleus together via “[color](#) flavors” called red, green, blue

Radioactive [Beta](#) decay of a neutron (n) to a proton-electron (p-e) pair, converts a down quark to an up quark via a W⁻ energy emission, which life converts in 10⁻²⁴ second to an electron and an anti-neutrino

W⁻ and W⁺ atomic [Alpha](#) energy jumps are similar to photon, γ, emissions via electron energy level jumps in atoms which produce light spectra unique to each type of matter

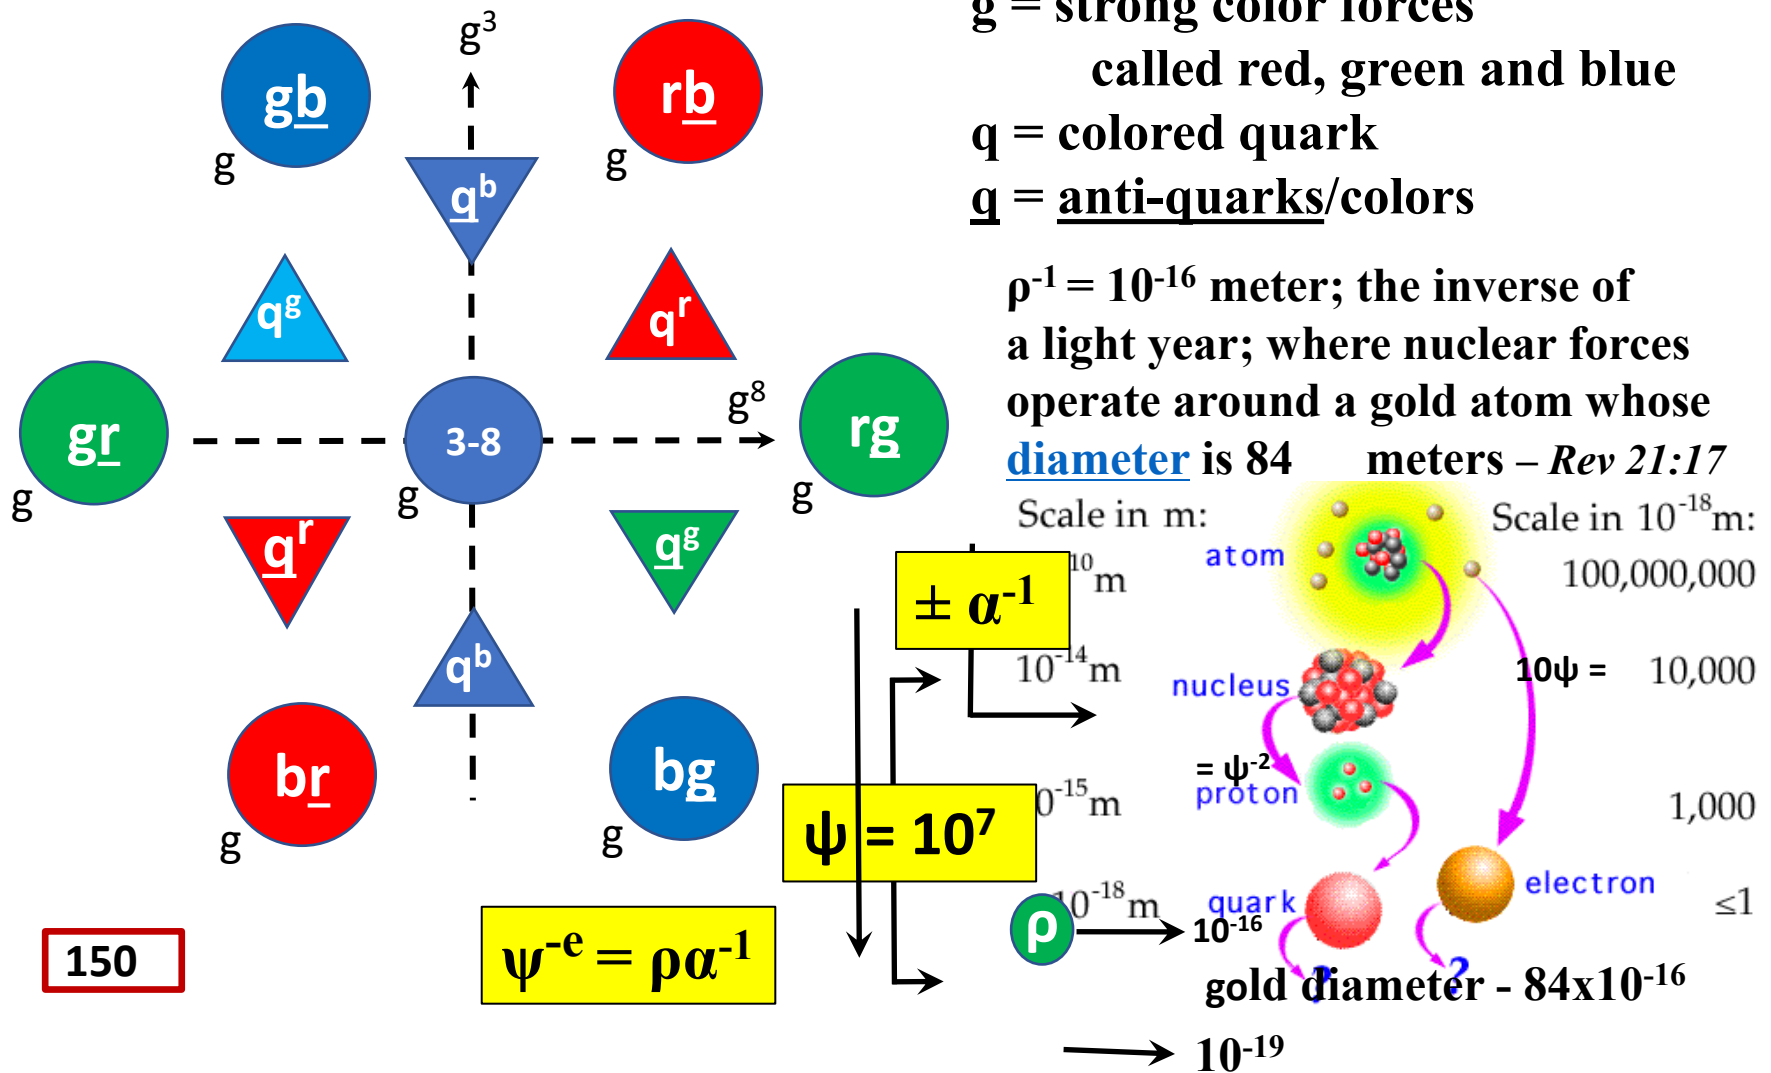

God may use α-life forces to move angels and men between μ- and t-matter ([arrows](#)), and inversion of charge vs. weight between μ-τ- and t-matter may make them invisible in earth

The W/Z [coupling](#) constant compared to the [strong](#) g-force is g/ψ and to photons αγ, and to [gravity](#); $G_t = g/\alpha\psi^5 = g/10^3 10^{35} = 10^{-38} g$

Gold menorahs model quarks - strong forces

g = strong color forces
called red, green and blue
q = colored quark
q = anti-quarks/colors

$\rho^{-1} = 10^{-16}$ meter; the inverse of

Space/Time Scales

The Triune God exists in three orthogonal **time-lines**:

Spirit and man's *t-time*; Son and angel's *s-time*; Father's *e-time*

Son's *s-month* = ψ t-days; God's *e-day* = 666 = σ angel *s-days*

God's *e-Hour* = ψ t-years, so an *e-Second* = 2,777 $\approx 4\sigma$ t-years

Einstein's symmetric equation is: $E = mc^2 = mc_s c_t = c_e c_s c_t = 12\psi^3$
 where: $c = 30 \psi$, $c_e = \psi/70$; $c_t = 11c$; $c_s = e\psi$

Bekenstein-Hawking's entropy equation at the Plank length:

$$\ell = \sqrt{G\hbar/c^3} = 10^{-35} = \psi^{-5} \text{ meter}; S = Ak/4\ell^2 = A \nabla_e E = 12\pi\psi^{-13}$$

All current scientific paradoxes are resolved using e-time

Portals to Heaven

23.Arks provided access to heaven's 7th space/time dimension

- A. Israel built the Ark of the Testimony to hold God's treasures – *Ex 25:10*
- B. God was present above the Ark. *"There, above the cover between the two cherubim that are over the ark of the Testimony, I will meet with you and give you all my commands for the Israelites."* - *Ex 25:22* which represented a direct connection to heaven via the 7th dimension
- C. *"The ark of the covenant of the LORD went before them during those three days to find them a place to rest."* – *Num 10:33*; and heaven is everyone's final resting place in God's 7th Day of rest
- D. John saw the other end of the visible link to the ark of the covenant in heaven via the 7th space/time axis: *"Then God's temple in heaven was opened, and within his temple was seen the ark of his covenant"* – *Rev 11:19*
- E. Moses was saved in a small ark on the Jordan – *Ex 2:5*
- F. Moses' staff opened the Red sea - *Josh 3:13* and Elijah's cloak also opened the Jordan River probably using the 7th dimension - *2 Kings 2:8*

Noah's Ark access to heaven

Noah's Ark is a model with a possible portal to heaven

- G. Noah's physical ark models baptism of spirits of mankind through water and doesn't include other life-forms, just man: *"For Christ died for sins once for all, the righteous for the unrighteous, to bring you to God. He was put to death in the body but made alive by the Spirit, through whom also he went and preached to the spirits in prison who disobeyed long ago when God waited patiently in the days of Noah while the ark was being built. In it only a few people, eight in all, were saved through water, and this water symbolizes baptism that now saves you also-not the removal of dirt from the body but the pledge of a good conscience toward God."* – 1 Peter 3:18
- H. Noah's family of eight stayed on his ark until it landed on Mt Ararat, but angels may have transported other life-forms to heaven to save them
- I. The Flood removed all other men and earth-bound animals - *Gen 7:23*
- J. Noah's ark models a portal to heaven just as the Ark of the Testimony did, having been seen in the world and in heaven – *Ex 25:22; Rev 11:19*

Angel's Tasks

Darwinian Evolution is incorrect as Angels redesign life forms from God's kinds in all worlds in all galaxies

- The origin of angels is not stated, but men become like angels and will need tasks to perform in eternity: *“But you have come to Mount Zion, to the heavenly Jerusalem, the city of the living God. You have come to thousands upon thousands of angels in joyful assembly.” - Heb 12:22*
- *“At the resurrection people will neither marry nor be given in marriage; they will be like the angels in heaven.” - Matt 22:29*
- *“Do you think I cannot call on my Father, and he will at once put at my disposal more than twelve legions (60,000 – 96,000) of angels?” - Matt 26:53*
- *“Do not forget to entertain strangers, for by so doing some people have entertained angels without knowing it” - Heb 13:2*
- *"The one who sowed the good seed is the Son of Man. The field is the world, and the good seed stands for the sons of the kingdom. The harvest is the end of the age, and the harvesters are angels - Matt 13:37*
- *“Do you not know that the saints will judge the world? ... Do you not know that we will judge angels?” - 1 Cor 6:2-3*

Science's paradoxes

Science's dark energy, dark matter, [dark flow](#), black holes singularities, rapid expansion, and weak gravity currently being analyzed are explained in Genesis to Revelation

- A. The Big Bang concepts assume an initial explosion followed by gravity's aggregation of energy into matter via the [Higgs Boson](#), then into galaxies and worlds, and finally converted into life
- B. Cosmologist's need large quantities of unknown [dark matter](#) and [dark](#) energy, which are invisible, and light into all void
- C. Accelerating cooapse of the universe into a "[black hole](#)" void forms gravity via Schwartzchild's: $r/2 = mG/c^2$, $G = 7 \times 10^{-28} \text{ m/kg}$; and Newton's gravity equation between masses is $F = \sigma \times 10^{-13} m_1 m_2 / r^2$
- D. Science looks for a Higgs boson to convert energy into mass via Einstein's: $m = E/c^2$, but only life can create mass – *Gen 1:1* ([16.1](#))
- E. The Higg's boson is supposedly 120 times the proton mass - a biblical number and man's maximum age found in *Gen 6:3* when man's spirit must convert from a human body to an angel's body to continue living

Large universe paradoxes

ALL current scientific paradoxes of large-space are resolved!

- a. Why is gravity so weak compared to the nuclear forces?**
- b. Why doesn't the speed of rotation of galactic arms decrease with distance, i.e. what is dark matter?**
- c. How can the solar system remain in orbit for 4 billion years over 16 turns of the galaxy, i.e. what causes dark flow?**
- d. Why is the universe so isotropic if it formed from an explosion and when, i.e. what caused science's rapid expansion?**
- e. What happened before the Big Bang and how big is the universe?**
- f. How can universe expansion accelerate, i.e. what is dark energy and what is the universe expanding into?**
- g. Why are all universal values of matter and forces so well balanced to allow life to exist and why is our world at the Goldilock location?**
- h. Is there a need for multiple universes to make ours statistically valid?**

Small universe paradoxes

ALL current scientific paradoxes of small-space are resolved!

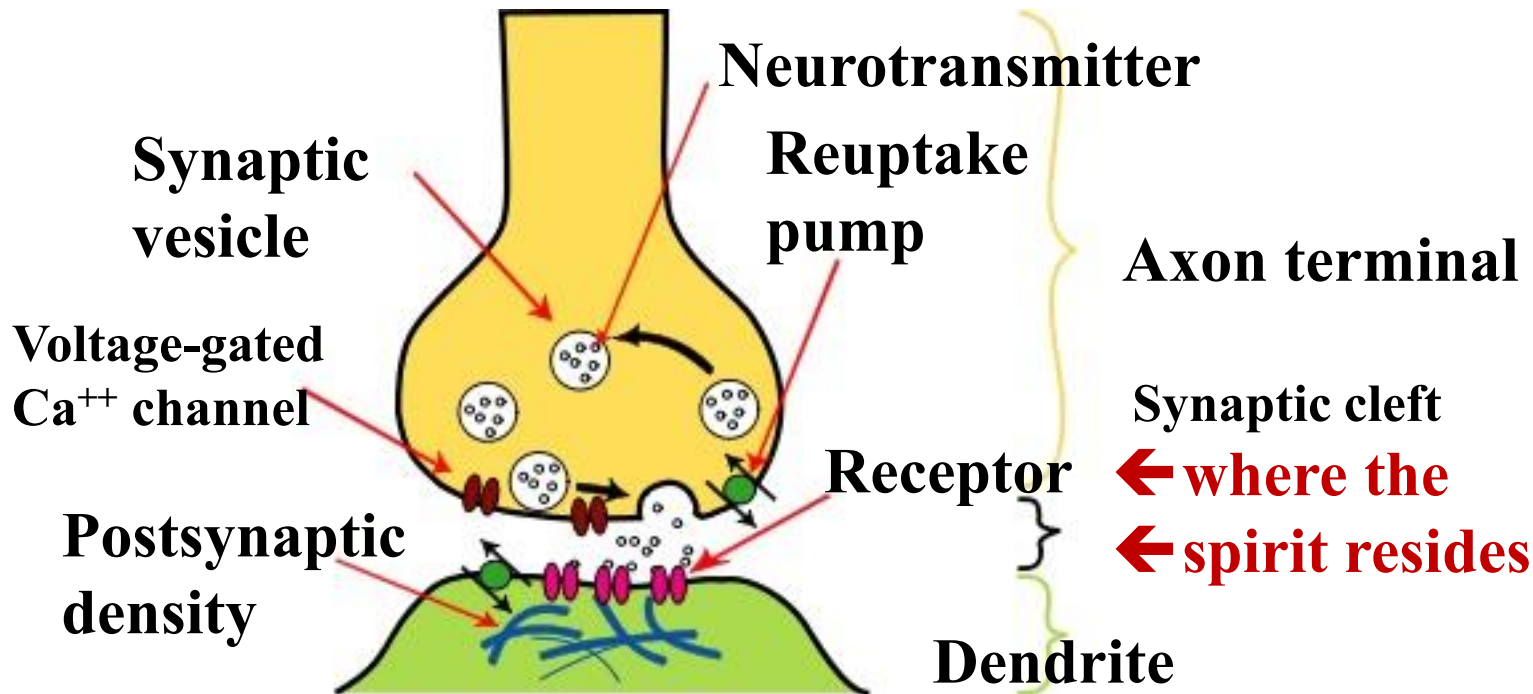

- a. Why the strange ratios and fine tuning between elementary particles, i.e. why the “[particle zoo](#)”?
- b. How or why did matter form from pure energy, i.e. does the Higgs Boson really exist?
- c. How can [electrons](#) simultaneously be in two places and act like particles and waves, and how do atoms generate light from discrete electron energy level jumps which apparently takes no time?
- d. How can light become “entangled” after passing through matter to allow widely separated photons to maintain coherence?
- e. Where are the 10 dimensions which are required by a variety of [string](#) theories, 7 of which are not observable?
- f. What is at the mathematical singularity at the center of a black hole and what truly are reality, space and time?
- g. Is there really a finite lower limit to mass and time in the Void?

Life paradoxes

All scientific paradoxes of life are resolved if all are created

- A. Why, where, when, and how did life start, and are we unique?**
- B. How does life create mass from energy?**
- C. How do the trillions of cells in a man's body grow so quickly?**
- D. Why are there so many varieties of life and how does life adapt?**
- E. How do plants and animals become bio-connected?**
- F. How can the matter in cells perform all the functions of life?**
- G. Where is life in plants and animals?**
 - a. Perhaps our spirits live in the space between matter, just as we live “within” a house but not “in” the house's matter**
 - b. As an image of God we too have three persona; command, control and maintenance, each doing a separate life task**
 - c. Science speculates a need for axions which are within atoms**
 - d. Our spirits may exist between brain axons via synapse clefts and not within brain matter itself – Matt 5:29; Mark 9:43**

Man's 3-spirits reside between brain matter

Electrical [synapses](#) may form life spirits in man's and animal brains while the body is mechanical but organic ala vegetation, since loss of body parts doesn't change man's nor animal personalities, and the maintenance persona is able to adapt

Implications from the models – Rom 1:20

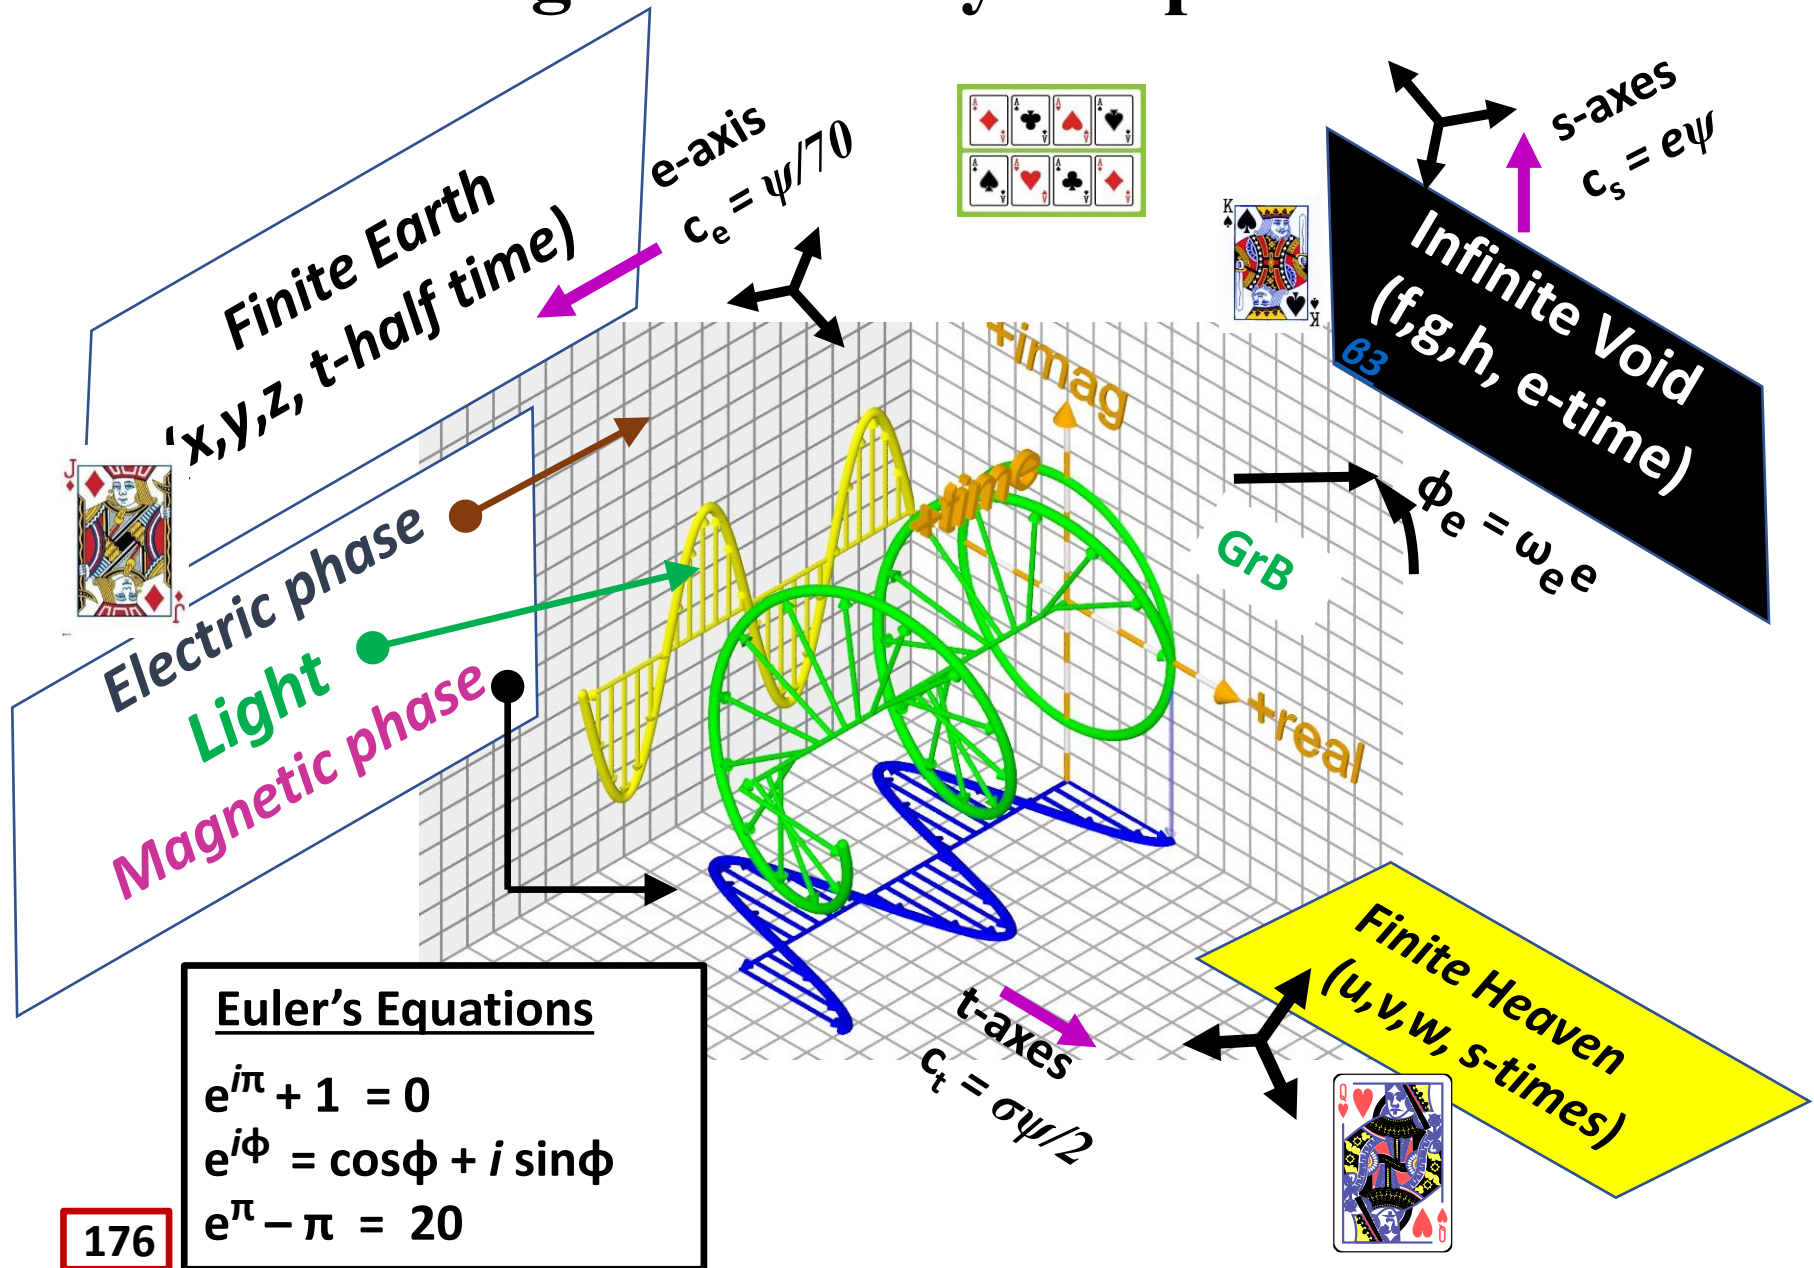

- A. Each galaxy is home to a Spirit brother of the firstborn Son, for and through whom the universe was created**
- B. A menorah's central post with 4 lamp cups model 4 portals from the void where precious stones enter the universe**
- C. The Triune God's original creations of life-forms on worlds in each galaxy is adapted to changing by angels in each**
- D. God's eternal e-time exists as bi-directional to created t-time and s-time, so man's and angel's destiny is known to God**
- E. light is 10-dimensional space/time, light from other galaxies are seen as "Today", not as distant time in our dimensions**
- F. The ratio between the smallest neutrino and largest top quark (God's precious stones) is 7.77ψ , so God's number is 777, and Einstein's equation has c_e , c_s , c_t time/space scalings**

Rewriting Einstein's Equation

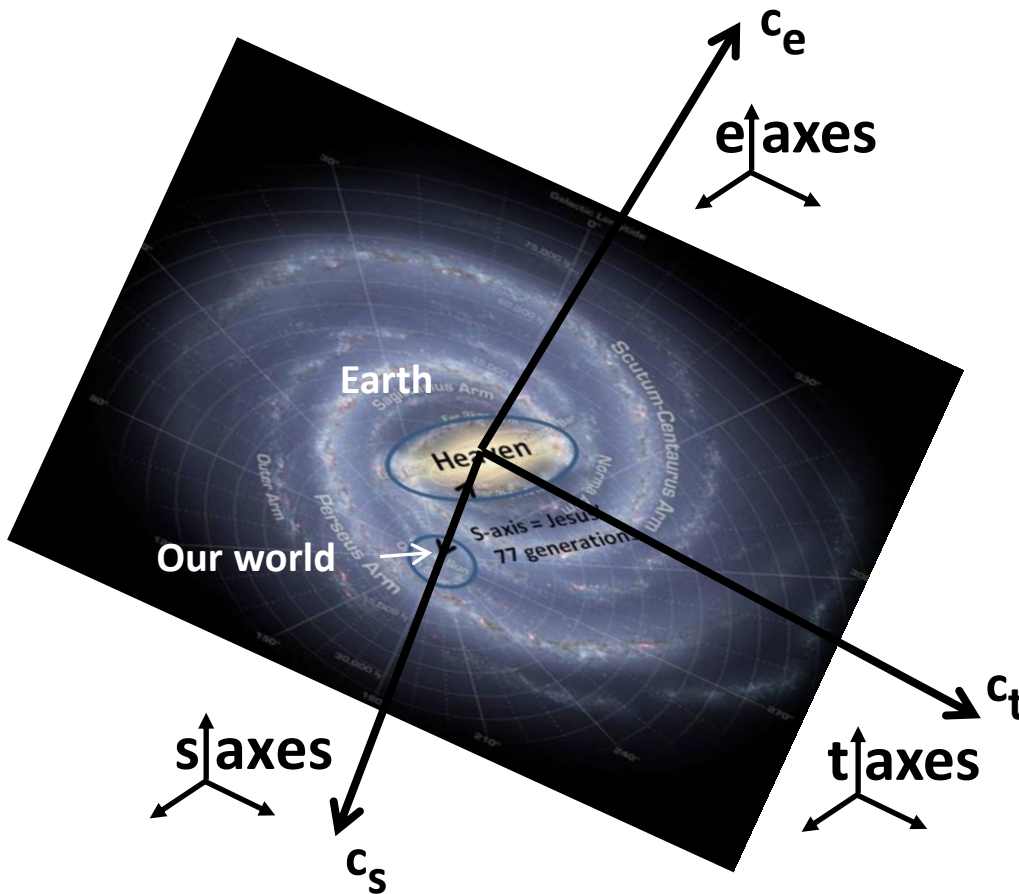

Energy equals mass times the speed of light squared

- A. God uses life forces to “grow” matter from energy, which science calls “strings” and attempts to explain the conversion via the Higg’s field or Boson**
- B. $E = mc^2 = m \times c \times c$ where c is the scalar speed of light**
- C. If $E = m \times c_s \times c_t$ this can be written symmetrically with another embedded scale factor: $E = c_e \times c_s \times c_t$ where c_e, c_s, c_t are space-to-time scalings along e, s, t – axes**
- D. These c_i ’s contain conversions from energy to space/time and mass, m_i , according to the Trinity’s design entropy, S**
- E. God, angels and man exist in different matter in the void and heaven or earth respectively as $m_i = m_\tau, m_\mu, m_t$**

Orthogonal Trinity of Spaces/Times

Scaled values for c_e , c_s , c_t from $E = mc^2$

$$\text{Light Energy} = mc^2 = c_e \times c_s \times c_t$$

$$\text{And } c^2 = c_s c_t = (299,792,458 \text{ m/s})^2$$

From (15.4) to 2 decimal places:

$$m_t = E/c_s c_t$$

$$m_\mu = E/c_e c_t = 190 m_t$$

$$m_\tau = E/c_e c_s = 23,000 m_t$$

$$c^2 = c_s c_t = (30\psi \text{ m/s})^2 = 900\psi^2$$

$$m_\mu/m_t = (E/c_e c_t) \times (c_s c_t / E) = 190$$

$$\text{so: } c_s/c_e = 190 \text{ or:}$$

$$c_s = 190 c_e$$

$$m_\tau/m_t = (E/c_e c_s) \times (c_s c_t / E) = 23000$$

$$\text{so: } c_t/c_e = 23000$$

$$c_t = 23000 c_e$$

$$c_s = 190 c_e = 0.0083 c_t = \underline{2.71\psi}$$

$$c_t = \sqrt{(900\psi^2 / 0.0083)} = \underline{333\psi}$$

$$c_e = \underline{\psi/70}$$

$$E = c_e \times c_s \times c_t = \underline{13\psi^3}$$

Prayer

Our prayers ask God for guidance to achieve faith

- a. Inertial guidance systems are reset using GPS inputs to improve vehicle position and velocity, just as prayers reset our path to glory - *Acts 20:24*
- b. Paul said when he was a child he thought as a child, but when older as a man, so all men must search the bible for knowledge and truth
- c. Communion's prayer is that men accept a physical presence of the Son's body and blood so He may live in and guide them

Predestination may be God's resets to our lives thru prayer

- a. At various intervals our lives may be reset by guardian angels (days), the Spirit (months), the Son (years), and at the end of life, the Father
- b. Man lived 1,000 years at creation, 500 and less after the flood when God said "his days will be a hundred and twenty years."
- *Gen 6:3*
- c. David said "The length of our days is seventy years — or eighty, if we have the strength" - *Ps 90:10*; so a generation is 2/3 of man's lifetime

Conclusions

- A. The universe is a living organism since only life can convert energy, coming from the void, to matter and other life forms**
- B. Man is centrally located in the space/time of earth and will morph into angelic μ -bodies at death, covered with white robes of perfection, to move to heaven via the 7th dimension**
- C. The Big Bang paradigm and Darwinian Evolution form incorrect bases for creation of the universe and life, and result in unsolvable paradoxes**
- D. The bible explains the physical creation of everything from light, the spiritual purpose for mankind's existence, and our eternal participation with angels in heaven**
- E. The Spirit provides men faith, Christ the Son hope, and the Father eternal love, all from the One Triune God – *1 Cor 13:13***
